Grafica™

Graphic LCD Keypad

Smart

- Instantly locate open zones on a floor plan and view your entire system status.
- Receive instant feedback after an alarm, when bypassing a zone or when arming the system.
- Set up to 8 special events that will show a graphic and play a tune to remind you of an important event.
- Play your favorite tune on entry and exit delays or during a burglary or fire alarm.

Simple

- An icon-driven menu guides you with visual instructions on a large graphic display screen.
- A built-in smart search function locates individual users and zones without having to scroll through the database.
- Create new user profiles by copying an existing profile.

Sexy

- A stainless steel finished casing that comes in silver or champagne.
- Its slender stylish design, blue backlighting and laser-trimmed text make Grafica the trendiest keypad on the market.
